## **Heavy Duty Power Wash Liquid**

Powerful, heavy-duty, detergent cleaner which contains surface active agents for the deepest penetration of residues to remove organic build-up.

- Essential for maximum efficiency with all high pressure washing equipment.
- Ensures speed & thoroughness in the removal of organic build-up on all surfaces.
- For floors, walls & ceilings of all types of building structures, livestock housing, fixed equipment & vehicles.
- High quality product contains surface active ingredients for the deepest penetration of residues, alkali & sequestrates to promote effective dispersal of soiling.
- Ideal for use under any water hardness conditions.
- Mixes readily with water & is free-rinsing.
- Suitable for & effective with hot & cold pressure washers.

Calibrate the pressure washer to the correct dilution setting before use.

**Light Soiling:** Use at a dilution of 1:500 parts of water.

**Heavy Soiling:** Use at a dilution of 1:250 parts of water.

**Foam Soiling:** Use at a dilution of 1:50 - 1:150 parts of water depending on type of foam applicator used.

Wet all surfaces thoroughly with solution using low pressure & allow to soak in for a minimum of 15 minutes to effect maximum penetration & soil removal. Then continue to pressure wash until all surfaces are clean.

### **Product Information**

**Appearance:** Clear Colorless Liquid

**Odour:** Pungent acetic acid

**PH – undiluted:** 1.0

**Shelf Life:** 1 Year

**Composition:** Contains a blend of peracetic acid, hydrogen peroxide and acetic acid.
